# Introduction

Moodeng Coin (MOOD) is a unique cryptocurrency designed to connect the digital world with tangible real-world assets globally. Moodeng Coin goes beyond the conventional crypto project by offering a new investment experience through holding assets of real value, earning dividends, and enjoying exclusive benefits via Moodeng NFTs.

Investing in Moodeng Coin means investing in the future by seamlessly integrating blockchain technology with real-world assets, enabling coin holders to generate more value than simply holding traditional tokens.

## Project Overview

Full Name: **Moodeng Coin**

Ticker: **MOOD**

Blockchain: **Binance Smart Chain (BSC)**

Total Supply: **88,888,888,888 MOOD**

## Presale Rewards

Presale participants meeting the eligibility criteria will receive Moodeng NFTs, which provide exclusive free stay privileges at 3- to 5-star properties for up to 2 guests.

## Referral Program

Moodeng Coin offers an attractive referral program with a 2-level commission structure:

Level 1: 5% commission on direct referrals

Level 2: 3% commission on referrals from sub-affiliates

## Burn Policy

Any unsold tokens during the Presale phase will be burned to reduce supply and increase scarcity.
